Contents

Introduction	2
Chapter 1 – Description of Water System	3
Distribution System Map and Service Area.....	3
Ownership and Management	3
Chapter 2 – Planning, Demand, & Water Forecasting	7
Projected Population and Water Demand	7
Water Demand Forecasting.....	8
Chapter 3 – System Analysis	10
Water Rights and Water Supply Assessment.....	10
Water Storage Evaluation	14
Chapter 4 –Conservation Program	16
Conservation Program Development and Implementation.....	16
Chapter 5 – Capital Improvement Program	17
Distribution Piping Improvements (Projects A-H).....	18
Source of Supply Facilities (Projects I, J & N).....	18
Telemetry Improvements (Project M)	18
Chapter 6 – System Development Charges	21
SDC Analysis.....	21
