The Visioning Process

City of Battle Ground Comprehensive Plan Update

Background

In the mid-1990s, the City of Battle Ground (the City) and the Washington Department of Transportation (WSDOT) began the process of updating their comprehensive plan. The City's existing comprehensive plan was adopted in 1989 and needed to be updated to reflect the changes that had occurred in the area since that time. The WSDOT’s goals were to improve the overall mobility and accessibility of the region and ensure that the City’s comprehensive plan was consistent with state and federal transportation policies.

The City’s existing comprehensive plan was adopted in 1989 and needed to be updated to reflect the changes that had occurred in the area since that time.
